

## Risk in Information Systems & E-Business (**RISE**) Special Interest Group (SIG) Committee 2006/7

*To be the recognised IRM group responsible for the management of RISE knowledge and best practice, providing leadership and an IRM voice on this specialist risk issue*

### Chair

**Dr Phil Kelly DBA MBA BSc (Hons) PCPD ILTM FIRM CFE MBCS CITP**  
Senior Lecturer - Liverpool John Moores University

Dr Phil Kelly is a Senior Lecturer on Business Information Management with the School of Business Information (Faculty of Business and Law) at Liverpool JMU and is a Director and Consultant with SecuredRisks. At JMU he lectures on the MBA and Business Information Systems degree programmes - on the business use of information systems and risk. Phil is also the academic and specialist advisor to the GSM Association and is the Chief Examinations Officer for their Certified Fraud Programme. He is the lead examiner for the specialist IRM module - Information Systems Risk and was the author of the associated core text. In addition he is presently the module leader for the core

IRM diploma module, Risk Analysis. A Chartered IT professional, he is a member of the BCS and sits on the editorial panel for their Information Risk Management & Audit Specialist Group. As a risk practitioner he has worked for over twenty companies spread over 17 countries and was the risk advisor to Asia's highest paid CEO. Academically, he has a Doctorate from Manchester Business School and has worked in three different UK universities.

### Secretary

**Nick Bellamy ACII ACILA**  
Senior Loss Control Representative - Loss Control Services, Chubb Insurance Company of Europe S.A.

Nick is a Senior Loss Control Representative working out of the London office of Chubb Insurance of Europe S.A. He joined Chubb in 2003, prior to which he worked in the risk management and loss prevention field for both a commercial broker and a UK composite insurer. Nick has worked with a wide variety of businesses ranging from Financial Institutions to many sectors of the manufacturing and hi-tech industries. He is also a qualified Loss Adjuster, having worked for an international adjusting firm for 15 years and is an Associate of the Chartered Institute of Loss Adjusters and an Associate of the Chartered Insurance Institute. At present Nick specialises in the Technology Sector, supporting our Technology Insurance Services section. A significant part of his role is to undertake risk surveys and provide advice on protection and best practice in areas ranging from physical security and fire protection to Professional Indemnity and Products Liability for firms ranging from software developers to hardware manufacturers, hosting centers and telecom services providers.

### Communications

**Brian Edmondson CEO Netsurity**

Brian has spent thirty years of his career in Telecommunications and systems integration, delivering large scale projects into corporations and government departments. RISE is a complex and huge issue for many organisations, with new threats constantly emerging, constantly changing technology and business and regulatory governance demanding exacting standards in risk management. "I think RISE is a hugely important issue and welcome the opportunity to help in promoting knowledge and best practice".
